

# Model for Improvement

## ACT

Refinements

Next steps:

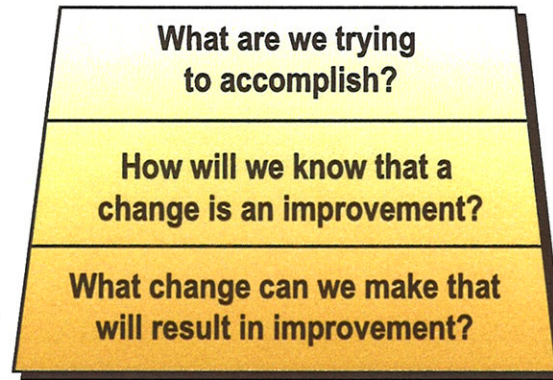

- Increase the size of the test
- Build on successful strategies
- Broaden the circle of support and participation

Monitor over time for progress toward aim

## STUDY

What was learned?

- Problems
- Successes
- Surprises

## PLAN

What change are we testing?  
 Who is included in the test?  
 When are we testing?  
 What do you expect will happen?

Process Measure

-Improvement will impact the outcome

Outcome Measure

-Is the change helping to achieve the aim?

What data are we already collecting?

What other data do we need?

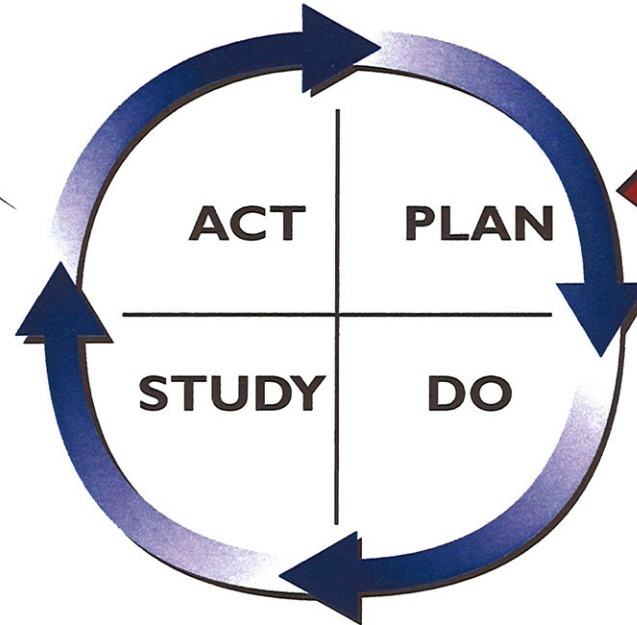

What is our plan?

## DO

Implement the change

Collect process data

Make observations

1-3.1
